Canadian Angel Capital Top 10 Companies Recognized

Co-investment Summit Showcases Tomorrow's Champions

Toronto, November 20th, 2008 – Angel investors attending the First Canadian Co-investment Summit yesterday from across Canada voted for the Canadian Angel Capital Top 10 Companies. These enterprises were considered “Canada’s best Angel-backed early-stage investment opportunities” by the over 120 investors present at the Summit.

“This is really a vote of confidence in the future by Canada’s Angel investors,” said W. Daniel Mothersill, President, National Angel Capital Organization. “Angel investors are the only distinct class of capital left that is focused on funding commercialization by early-stage companies – our investees are Canada’s future champions and major employers.”

The Canadian Angel Capital Top 10 Companies are:
